7. Bump Out

The bump out will start 20 minutes after the show has ended and will last for 2.5 hours.

8. Staging - PRESENTER TO PROVIDE

Barbu, Foire électro-trad. is a show that can be adaptable to any kind of venue as long as the minimal venue dimensions are respected.

Minimum venue dimensions :

Width of venue : 13.5 meters / 45'

Depth of venue : 19 meters / 61'

Height : 6.5 meters / 22'

Minimum stage dimensions :

a. Central round stage: 4.8m diameter (minimum) and 850mm in height.

The area under the floorboards under the circular stage must be chocked to make it level and sturdy (500kg/m²)

There must be a set of stairs for the artists to go up and down the stage.

b. Catwalk: 1.2m wide and 500mm in height (length is dependent on venue but must be minimum of 3.8m)

c. Band Stage: minimum of 9.75m wide x 5.8m deep (850mm high is preferable, must not be lower than 850mm)

Masking :

2 pairs of black border (according to venue dimension)

1 black backdrop

Staging plans are available on request.

9. Seating

Barbu, Foire electro-trad., is designed for a cabaret style seating configuration. Company Cirque Alfonse can assist with determining the seating arrangements and audience capacity in the venue.

- Two aisles are required from the circular stage to the lighting and sound boards.
- The boardwalk must be kept clear of patrons at all times.

10. Rigging

Presenter to Provide

A suitably qualified and experienced rigger that knows the venue, its structure and its charge limitation. An engineer certification must be provided upon Cirque Alfonse request.

1 x Rigging point at the very center of the circular stage. WLL 3000lbs/1300kg.

1 x Rigging point (block and pulley) over the floor counterweight. WLL 3000lbs/1300kg.

1 x Floor Rigging point along the venue wall. Used as counter weight. WLL 3000lbs/1300kg.

4 x Ceiling rigging points for hanging 2 video screens of 24'7,3m x 8'2,4m.
